Published by

The Chemical Society of Japan

5, 1-Chome, Surugadai-Kanda, Chiyodaku, Tokyo

CONTENTS OF VOLUME 32, 1959

No. 1

General and Physical

T. ISEMURA and T. YAMASHITA: Surface Chemistry of Synthetic Protein Analogues. VII. Polytyrosine and its Related Polypeptides. 1

H. TAKAHASHI: Thermal Effects of Some Kaolin Minerals. II. Halloysite..... 17

K. SHIMIZU and H. MURATA: Normal Vibrations and Calculated Thermodynamic Properties of Methyltrichlorosilane. 46

E. KATO: Phase Transition of Lithium Ferrospinel—Lithium Aluminospinel Solid Solution. 51

H. INOKUCHI and M. NAKAGAKI: The Density of the Polycyclic Aromatic Compounds. 65

K. TAKIYAMA: Formation and Aging of Precipitates. X. An Electron Micro-Diffraction Study on Crystal Habit of Barium Sulfate Precipitates. 68

Y. TANIZAKI: Dichroism of Dyes in the Stretched PVA Sheet. II. The Relation between the Optical Density Ratio and the Stretch Ratio, and an Attempt to Analyse Relative Directions of Absorption Bands. 75

S. TAKAGI, H. CHIHARA and S. SEKI: Vapor Pressure of Molecular Crystals. XIII. Vapor Pressure of α-Glycine Crystal. The Energy of Proton Transfer. 84

Analytical and Inorganic

N. MAKI, Y. SHIMURA and R. TSUCHIDA: Polarographic Studies of Metallic Complexes. III. Pentammine Series of Cobalt(III) Complexes. 23

I. IWASAKI and T. TARUTANI: Silica in Water. V. Salt Effect on the Colorimetric Determination of Silica in Concentrated Salt Solution. 32

F. AOKI, S. YAJIMA and T. KUROSAWA: Rapid Analysis of Gamma-Emitter Using Gamma-Ray Scintillation Spectrometer. II. Determination of ^{137}Cs in Fission Products. 42

M. MORI, S. UESHIBA and H. YAMATERA: Photometric Study on the Change of Basic Rhodochromium Ion to Basic Erythrochromium Ion in Aqueous Solution. 88

Organic and Biological

K. HATA, K. WATANABE and H. WATANABE: Catalytic Hydrogenation in Vapor Phase with Urushibara Nickel Catalyst..... 6

Y. KAWASE: Reactions of Active Methylene Compounds. IV. Synthesis of 2-Hydroxyphenyl Benzyl Ketones and 4-Hydroxy-3-phenylcoumarins. 9

Y. KAWASE: Reactions of Active Methylene Compounds. V. New Synthesis of Hydroxy Substituted 2-Hydroxyphenyl Benzyl Ketones and 4-Hydroxy-3-phenylcoumarins, and Structures of the Latter and Related 2-Imides. ... 11

S. SAKAKIBARA: Studies on Dehydroalanine Derivatives. I. Synthesis of *N*-Carboxydehydroalanine Anhydride. 13

M. KUROKAWA, K. HOTTA, T. YOSHIMURA, M. MAKITA and I. HARA: Studies on the Cephalin of *Escherichia Coli*. 28

C. URAKAMI, H. KAMEYAMA and M. OKADA: Antioxygenic Activity of Lecithin and its Hydrolysis Products. II. α- and β-Glycerophosphoric Acids. 36

S. NISHIMURA: Raney Nickel and Platinized Raney Nickel with Higher Catalytic Activities..... 61

J. Hoshino: Untersuchungen über die Bildung der Proteinase aus einem *Aspergillus awamori*-Stamm. II. Charakterisierung des Proteinasebildungsvermögens des Mycels im Kultursverlauf durch seinen Stickstoffwechsel... 71
S. Umezawa, Y. Ito and S. Fukatsu: Studies on Antibiotics and Related Substances. VII. The Structure of Kanamycin. 81
N. Tanaka, I. T. Oiwa, T. Kurosawa and T. Nozoe: The Dissociation Constants of Carboxytropone ard Carboxytropolones..... 92

Applied

T. Noda and Y. Sumiyoshi: Experiments on Synthetic Mica Crystal Growing. Crystal-Growing with Carbon Granule Resistance Furnace..... 54

Short Communications

T. Ikeda: Absolute Estimation of the Ionic Entropies of Transfer. 96
S. Fujise, M. Suzuki, Y. Watanabe and S. Matsueda: Studies of the Structure of Bergenin. 97
V. S. Vaidhyanathan: Remarks on the Composition Potential..... 99
K. Hirota, K. Kuwata and K. Morigaki: Paramagnetic Resonance Absorption in Solution of the Sodium Adducts of Styrene and 1, 1-Diphenylethylene... 99
Y. Urushibara and J. Inomata: 2ξ, 3-(3′-Oxocyclohex-4′-eno)-cholest-4-ene and 2ξ, 3-(3′-Oxocyclohex-4′-eno)-5α-cholestane (Preliminary Note)..... 101
S. Fujiwara, M. Katayama and H. Shimizu: High Resolution Proton Magnetic Resonance in Fluorobenzene..... 101
S. Nishimura and K. Mori: Hydrogenolysis and Hydrogenation of Some 2, 3-Unsaturated Alcohols with Platinum Oxide and with Platinized Raney Nickel..... 103

No. 2

General and Physical

M. Muramatsu: Studies on the Interaction of Surface Films with Solute in Solution. IV. Effect of Congo Red Dissolved in Aqueous Substrate upon the Monolayers of Octadecylamine, Cetyl Alcohol, Ethyl *n*-Hexadecyl Ether, Ethyl Stearate and Cholesterol. 114
Y. Tanizaki, T. Kobayashi and N. Ando: Absorption Spectra of Dyes. II. On Non-additivity of Absorption Spectra of Binary Mixtures of a Direct Dye and Some Acid Dyes in Aqueous Solution. 119
H. Obata, K. Kogasaka and M. Koizumi: Photochemical Reactions between Methylene Blue and Tri-, Di and Monomethylamine. III. The Behavior of Methylene Blue in the Presence of Oxygen. 125
S. Takagi, R. Shintani, H. Chihara and S. Seki: Vapor Pressures of Molecular Crystals. XIV. Sulfamide and Diacetylhydrazine. 137
H. Kuroda and H. Akamatu: Studies on the Graphitization. II. Sub-structure and Crystallite Growth of Carbon Black. 142
K. Takahashi, Y. Matsuki, T. Mashiko and G. Hazato: A Note on the Proton Magnetic Resonance Spectra of Some Thiophene Derivatives. 156
Y. Sasada: Crystal and Molecular Structure of 1-Oxa-azulan-2-one. I. X-ray Determination of Crystal Structure. 165
Y. Sasada: Crystal and Molecular Structure of 1-Oxa-azulan-2-one. II. A Refinement of the Structure by Low Temperature Technique. 171
T. Isemura and S. Ikeda: The Roles of Prolyl Residue in Polypeptide Monolayers. I. On the Chain Configurations Deduced from Surface Pressure and Potential Measurements. 178

M. Iwasaki: Electron Diffraction Investigation on the Molecular Structure of 1,1,2-Trifluoro-1,2,-trichloroethane. 194

Analytical and Inorganic

T. Sata: Phase Relationship in the System $3CaO \cdot P_2O_5$–$CaO \cdot MgO \cdot 2SiO_2$–$SiO_2$. ... 105
S. Musha, M. Munemori and K. Ogawa: Photometric Determination of Indicator End Points in Complexometric Titrations. 132
N. Maki, Y. Shimura and R. Tsuchida: Polarographic Studies of Metallic Complexes. IV. Bisethylenediamine Series of Cobalt(III) Complexes. 150

Organic and Biological

Y. Ogata and I. Tabushi: Kinetics of the Acid-Catalyzed Peroxide Oxidation of 4-Hydroxybenzaldehyde in Acetic Acid. 108
F. Sawada: The Fundamental Conditions for Countercurrent Distribution Studies of Clupeine. 161
T. Arai: The Electrolytic Reduction of Ketones at a Mercury Cathode—Preparation of Organomercuric Compounds. 184
A. Takamizawa, K. Tokuyama and K. Tori: Syntheses of Pyrimidine Derivatives. XVII. On the Reaction Mechanism of Some Pyrimidine Syntheses. ... 188

Short Communications

S. Fujiwara, M. Katayama, S. Hayashi, H. Shimizu and S. Nishimura: Nuclear Magnetic Resonance Spectra of Dibromothiophene. 201
Y. Takaki, Y. Sasada and T. Watanabé: Crystal Structure of Pyrazinamide. ... 202
H. Kobayashi, S. Nagahara and S. Akiyoshi: Dehydrogenation of the Degradation Products of Thujopsene. 202
Y. Ikutani, T. Okuda, M. Sato and S. Akabori: The Reaction of Glycine Cobalt Complex with Acetaldehyde. 203

No. 3

General and Physical

M. Iwasaki: Molecular Structure and Rotational Isomerism of Some Fluorochloroethanes. 205
H. Takahashi: Effects of Dry Grinding on Kaolin Minerals. I. Kaolinite. 235
H. Takahashi: Effects of Dry Grinding on Kaolin Minerals. II. Kibushi-clay.... 245
H. Takahashi: Effects of Dry Grinding on Kaolin Minerals. III. Halloysite. ... 252
T. Kondo and K. Meguro: The Interaction between Dyes and Surfactant. I. ... 267
M. Muramatsu: Non-exchange of Sulfur Atoms between Sulfate and Sulfonate Ions. 290

Analytical and Inorganic

K. Sugawara, M. Tanaka and S. Okabe: Separation and Determination of Microgram Quantities of Molybdenum in Natural Waters. 221
S. Ooi, Y. Komiyama, Y. Saito and H. Kuroya: The Crystal Structure of *trans*-Dibromobisethylenediamine-cobalt(III) Bromide Hydrobromide Dihydrate... 263
S. Shibata and T. Matsumae: Spectrophotometric Determination of Uranium with Neothorone. 279
T. Taketatsu: Ion-Exchange Separation of Cerium and Thorium with Lead-EDTA Complex as Eluting Agent. 291
H. Sano: Studies on Organic Reagents for Inorganic Analysis. V. *m*-Nitrophenylfluorone for the Spectrophotometric Determination of Zirconium.... 299

Organic and Biological

Y. Ogata and I. Tabushi: Kinetics of the Selenium Dioxide-Catalyzed Hydrogen Peroxide Oxidation of Dimethylaniline in Aqueous Methanol. 215
M. Kinoshita and S. Umezawa: Studies on Antibiotics and Related Substances. VIII. Syntheses of the Two Enantiomorphs of 5-Methylenecyclopentanone-3-carboxylic Acid. 223
K. Morita: Selective Oxidation of Allylic Alcohols with Active *N*-Halogen Compounds. II. 227
K. Toki: Synthesis of Sarkomycin. II. A New Synthesis of the Alkyl Cyclopentanone-3-carboxylate. 233
T. Mukai: Reaction of 2-Chloro-3-phenyltropone and 2-Chloro-7-phenyltropone with Ammonia and Amines. 272
H. Kato and M. Ohta: Studies on Meso-ionic Compounds. IX. Sydnone-4-carboxylic Acid via Lithium Compound. 282
M. Fujimoto: Phenothiazine Derivatives. III. Mechanism of the Reaction of Diphenylamine with Thionyl Chloride. 294
M. Fujimoto: Phenothiazine Derivatives. IV. Reactions of Thionyl Chloride with Some Substituted Diphenylamines and with Naphthylamines 296

Applied

Y. Ogino, M. Oba and H. Uchida: Study on Zinc Oxide—Chromium Oxide Catalyst. III. Promoting Effect of Chromium Oxide on Catalytic Activities for Methanol Synthesis and Decomposition. 284

Short Communications

J. Iyoda and I. Shiihara: Synthesis of Trimethylboron from Boric Anhydride or Borate 304
M. Tsuboi, T. Takenishi and Y. Iitaka: Coexistence of Two Different Molecular Forms within a Single Crystal of L-Valine. 305
M. Oki and H. Iwamura: ν_{O-H} Absorption of Cholesterol and Epicholesterol. ... 306
M. Murakami and K. Takahashi: Asymmetric Synthesis of Threonine by Optically Active Complex Ions of Cobalt. 308
A. Shimada: The Crystal Structure of Phenylarsonic Acid. 309
S. Okamoto and K. Takeuchi: Effect of Antioxidants on Polyethylene. 310
S. Akabori, S. Sakakibara and K. Sakakibara: On the Photochemical Decomposition of 2,4-Dinitrophenyl Peptides. 311
H. Tadokoro, S. Nozakura, T. Kitazawa, Y. Yasuhara and S. Murahashi: Infrared Absorption Bands Possibly Associated with the Helical Structure of Polystyrene, Poly-*p*-methylstyrene and Poly-*m*-methylstyrene Prepared with Ziegler Catalyst. 313
T. Sakan, A. Fujino, F. Murai, Y. Butsugan and A. Suzui: On the Structure of Actinidine and Matatabilactone, the Effective Components of *Actinidia Polygama*. 315
Y. Murakami: Rapid Gas Chromatographic Analysis of a Mixture of Oxygen, Nitrogen, Methane, Carbon Monoxide, and Carbon Dioxide. 316

No. 4

General and Physical

A. Shimada: Crystal Structure and Lattice Energy of *i*-Erythritol. I. Crystal Structure of *i*-Erythritol 325

A. SHIMADA: Crystal Structure and Lattice Energy of *i*-Erythritol. II. Lattice and Hydrogen Bond Energies for *i*-Erythritol..... 330
C. V. SURYANARAYANA and S. ALAMELU: Electrical Conductance of Concentrated Aqueous Solutions of Copper Sulfate. 333
M. NAKAGAKI and K. OSAGAWA: Penetration of Liquids into Filter Paper Used in Paper Chromatography. 344
K. KODERA and Y. ONISHI: The Molecular Cross-sectional Areas for Determination of Specific Surface Areas of Solids. I. Carbon Black. 356
H. TAKAHASHI: Effect of Dry Grinding on Talc. 374
H. TAKAHASHI: Wet Grinding on Kaolin Minerals. 381
K. TAKIYAMA: Formation and Aging of Precipitates. XI. An Electron Micro-Diffraction Study on Nucleation of Barium Sulfate Precipitate from Homogeneous Solution. 387
M. MURAMATSU: Studies on the Interaction of Surface Films with Solute in Solution. V. Deposition of Monolayers of Several Amphipathic Compounds from Surface of Aqueous Solutions of Congo Red and Crvstal Violet. 391
N. MATAGA, K. NISHIMOTO and S. MATAGA: Remarks on the Molecular Calculation of Naphthalene and Anthracene. 395
R. MATUURA, H. KIMIZUKA, S. MIYAMOTO, R. SIMOZAWA and K. YATSUNAMI: The Study of Adsorption of Detergents at a Solution-Air Interface by Radiotracer Method. II. The Kinetics of Adsorption of Sodium Alkyl Sulfates... 404

Analytical and Inorganic

N. YAMAGATA, T. YAMAGATA and S. MATSUDA: The Different Distribution of Rubidium and Cesium in Natural Plants. 407

Organic and Biological

T. ABE: Substituent Effects on the Ultraviolet Absorption Spectrum of 1,3,5-Trinitrobenzene in Some Solvents. 339
S. KAKIMOTO: The Aconite Alkaloids. XXIV. Oxidation of Miyaconitine and Miyaconitinone..... 349
H. SUGINOME and S. KAKIMOTO: The Aconite Alkaloids. XXV. Selenium Dehydrogenation of Miyaconitinone and Luciduscline..... 352
H. SUGINOME and S. FURUSAWA: The Aconite Alkaloids. XXVI. On Lucaconine and Monoacetyllucaconine..... 354
K. NAIKI: Studies on 3-(Anthraquinon-1-yl)oxazolidin-2-ones. I. 3-(Methylanthraquinon-1-yl)oxazolidin-2-ones and their Related Compounds. 361
S. NAGAHAMA, H. KOBAYASHI and S. AKIYOSHI: Polyterpenes. II. Oxidation of Thujopsene with Lead Tetra-acetate. 366
M. FUJIMOTO: Phenothiazine Derivatives. V. Synthesis of Hydroxyphenothiazines. 371
S. FURUSAWA: The Aconite Alkaloids. XXVII. On Lucaconine. 399
K. MORITA: Stereochemistry of Some Steroidal Ketones..... 414

Applied

S. MOCHIDA, I. KAWASAKI and Y. NISHIMURA: Changes of Dynamic Properties of Some Kaolin Minerals by Heat-treatment. 319
Y. TSUDA: Heat of Solution of Methanolized Cellulose..... 372

Short Communications

K. NARITA and K. MORI: Crystal Structures of Silicon Nitride. 417
H. SHIMIZU, M. KATAYAMA and S. FUJIWARA: Chemical Shifts of Proton Resonance and Mesomeric Effects in Substituted Benzene. 419

T. Fukuda: The Poisoning Effect of Lead Acetate and Quinoline. 420
T. Amiya: Isomerization of Luciculine. 421
N. Shibata and K. Yoshihara: Preparation of Chromium-51 of a High Specific Activity by the Szilard-Chalmers Process. 422
H. Hiraoka: Self-diffusion of Benzene under Pressure. 423

No. 5

General and Physical

M. Suga: Studies on Explosion Reaction of Ethylene Mixed with Oxygen or Air. II. On the Explosion Peninsula. 425
M. Yasuda: Dissociation Constants of Some Carboxylic Acids in Mixed Aqueous Solvents. 429
K. Kimura and R. Fujishiro: Interaction Polarization of the Hydrogen Bonded Complexes. 433
K. Takiyama: Formation and Aging of Precipitates. XII. Studies on Types of Crystal Growth of Barium Sulfate by Dissolution in Water. 442
K. Kishimoto and R. Fujishiro: Electronic Structures of Naphthalenediols. I. α, α'-Naphthalenediols. 445
K. Fukui, C. Hagata, T. Yonezawa and A. Imamura: Expansion Formulae of Secular Determinant in Simple LCAO MO Treatment of Aromatic Hydrocarbons. 450
K. Fukui, C. Nagata, T. Yonezawa and A. Imamura: Density Matrix in Simple LCAO MO Method. 452
C. Tamura, Y. Sasada and I. Nitta: Crystal Structure of 2-Chloro-1-aza-azulene. 458
M. Tamura, M. Kurata and T. Kotaka: Normal Stress Effects in Polymer Solutions. I. Measurements in a Parallel Plate Instrument. 471
T. Sasaki and K. Osaka: Confirmation of the Formation of Colloidal Particles in Aqueous Cobalt Salt Solution by Radiotracer Electrodialysis. 490
S. Mataga and N. Mataga: Protonation Effects on the Electronic Spectra of Pyrazine. 511
S. Mataga and N. Mataga: Effects of Protonation on the Electronic Structure and Spectra of Nitrogen Heterocycles. 521

Analytical and Inorganic

T. Kiba, I. Akaza and H. Hachino: Rapid Colorimetric Determination of Selenium by the Tin(II)-Strong Phosphoric Acid Reduction Method. 454
M. Mori, R. Tsuchiya and Y. Okano: Thermodynamic Studies on Cobalt Complexes. II. Solubility and Standard Free Energy of Formation of $[CoA_6]$-type Salts. 462
M. Mori and R. Tsuchiya: Thermodynamic Studies on Cobalt Complexes. III. Thermal Dissociation of Hexamminecobalt(III) Chloride and Chloropentamminecobalt(III) Chloride. 467
M. Maruyama and S. Seno: Analysis of Organic Compounds by Flame Spectrometry. I. Determination of Chlorine in Organic Compounds by Band Spectra of Cuprous Chloride. 486
N. Yamagata and S. Matsuda: Cesium-137 in the Coastal Waters of Japan. 497
N. Tanaka and K. Kato: The Formation Constants of Metal Acetate Complexes. I. Polarographic Determination of the Formation Constants of Acetonickel(II) Complexes. 516

Organic and Biological

Y. Fujita: γ-Hydroxyarginine, a New Guanidino Compound from a Sea-cucumber. I. Isolation and Identification. 439
K. Morita: Studies on the Sapogenins of *Dioscorea tokoro* Makino. I. The Structure of Tokorogenic Acid. 476
M. Fujimoto: Phenothiazine Derivatives. VI. Reactions of Some Substituted Phenothiazines with Thionyl Chloride. 480
M. Fujimoto: Phenothiazine Derivatives. VII. Reactions of Phenothiazines with Sulfuryl Chloride and with Chlorosulfonic Acid. 483
S. Seto and K. Ogura: The Mannich Base of Troponoid and its Application. I. Synthesis of 5-Hydroxymethyl and 5-Formyltropolone Derivatives..... 493
N. Sonoda and S. Tsutsumi: Hydrogen Peroxide Oxidation. I. A New Selenium Dioxide-Catalyzed Synthesis of Carboxylic Acids from Aliphatic Ketones Accompanied by Rearrangement of Alkyl Groups. 505
F. Toda and M. Nakagawa: Intramolecular Cyclization of *o,o'*-Dihydroxydiphenyldiacetylene. 514

Applied

M. Shigemitsu: Action of Reducing Agents on Copper Phthalocyanine and its Chlorinated Derivatives. 502

Short Communications

K. Satake and T. Okuyama: Photochemical Decomposition of 2,4,6-Trinitrophenyl Amino Acids and Peptides. 526
Y. Kato, U. Furukane and H. Takeyama: Ionic Character and Hybridization of Ammonia Molecule. 527
M. Tsuboi, Y. Iitaka, S. Suzuki and S. Mizushima: Two Crystalline Forms of DL-α-Amino-*n*-butyric Acid. 529
T. Mochizuki: A New Very Large Long-period in the X-ray Small-angle Diffraction of Polyethylene Filaments..... 531
K. Saito and M. Tamura: Isotopic Exchange of Zinc Chelate Compounds in an Anhydrous Organic Solvent. 533
S. Murahashi, S. Nozakura and H. Tadokoro: Crystalline Polymers of Some Nuclearsubstituted Styrenes..... 534
Y. Nomura: Organic Spot Tests. I. Detection of Acidic Compounds. 535

No. 6

General and Physical

K. Ogino: The Mechanical Bahavior of Swollen Polystyrene, Poly-*p*-chlorostyrene and their Copolymers in Benzene. I. The Degree of Polymer-solvent Interaction and Thermoelastic Properties. 553
A. Watanabe: Dye-sensitized Photopolymerization of Vinyl Compounds. Polymerization of Styrene by Cyanine Dyes. III. 557
I. Yamada, T. Yoshida and O. Kawase: Analysis of the Multi-azeotropes in Terms of the Zeroth Approximation. 570
E. Kato: Cation Arrangement in Lithium Ferrospinel—Lithium Aluminospinel Solid Solution. 585
S. Yamana: Molecular Rotations of Glucides in Relation to their Structures. VII. Internal Conformation of $O^{1\alpha}$—C^{α} Bond in $(OCH_3)^{1\alpha}$ of Methyl α-D-Xylopyranoside and of Methyl β-L-Arabinopyranoside in Aqueous Solutions. 597

N. Mataga and S. Mataga: On the Intermolecular Charge Transfer Spectra and Structure of Isomeric Aminopyridines. 600
